## BIOGRAPHICAL/HISTORICAL NOTE

The Lamar Elementary School Time Capsule Project took place during the years 1964-1965. The idea of the time capsule originated in the fifth grade class at Lamar Elementary School and was carried out by them as well. Principal of Lamar Elementary School, Charles Florence, was a major part of making this project possible.

The Time Capsule was buried in what is now the Edinburg Volunteer Fire Department but formerly known as the Edinburg Municipal Building. The Time Capsule was to be opened fifty years after its burial which would be in the year 2015. Items from Edinburg, Texas were donated to the school to be placed in the Time Capsule. The purpose of the Time Capsule was to show people in the year 2015 a glimpse of what life was like in the year 1965.

Fire Chief, Shawn M. Snider, uncovered the Time Capsule. At the time of the time capsule's removal, Snider explained that remodeling from years past had made the Time Capsule hard to find. A full layer of concrete had to be broken for the time capsule to be found. Once the Time Capsule was found, the surviving students were contacted and invited to attend the Time Capsule's opening ceremony.

The ceremony took place on July 4, 2015. A television crew attended the ceremony along with eight of the surviving students and a group of the general public. Items were spread out on a conference table in the Fire Department as the students helped explain the materials to those attending the ceremony. A letter was found which gave instructions as to what to do with the Time Capsule. The letter explained that the Time Capsule and its remains should be donated to the nearest museum, in which case was the Museum of South Texas History. Only the lid of the time capsule and the contents were kept by the Museum of South Texas History. As for Lamar Elementary School, it has been torn down to make room for an additional medical building in the University of Texas Rio Grande Valley.

## SCOPE AND CONTENT NOTE

The collection contains materials pertaining to the Lamar Elementary School Time Capsule Project of 1965. The various materials included give an insight to life in Edinburg, Texas in that year. The materials survived fifty years underground and range from school work from the Lamar Elementary School students to county meeting reports and local newspapers. Some items of note are letters that were sent from and to Charles Florence, principal of Lamar Elementary School; screwworm booklets; emergency survival plans; and *Child Labor Requirements of the Fair Labor Standards Act*. In addition to school photographs and other school related materials, the students preserved postcards and maps of Edinburg and Pan-American College. Census rolls found in the time capsule give us more information about the students and families in Edinburg. The students made predictions of the year 2015 to include in the capsule. Businesses in Edinburg in 1965 involved with the time capsule provided their cards. *Life and Post*

magazines were also found along with *U.S. News* and *World Reports* newspapers, a phone book, brochures, flyers, coins, and several posters.

Not all the contents of the time capsule were recovered due to some unexpected pens leaking ink causing some materials to be unrecoverable.
